**FIX-IT LOCAL GUIDE**

*Your Guide to Local Repairs*

- **WasteNot Project**
  and where to recycle in the Flathead at www.wastenotproject.org

**Learn more about the**

**WasteNot Project**

Working to reduce waste and increase recycling in the Flathead for since 1992.

**Fix-it Flathead** is a new offshoot of our 24 year strong WasteNot Project. Often it is easier to throw an item away than to find someone who can fix it. We aim to change that.

**Why Repair?**

**Repair Is Better Than Recycling**
Making things last longer is both more efficient and more cost effective than mining them for raw materials.

**Repair Saves You Money**
Fixing things is usually cheaper than replacing them. Doing the repair yourself saves even more money.

**Repair Teaches Engineering**
The best way to find out how something works is to take it apart.

**If You Can't Fix It, You Don't Own It**
Repair connects people and devices, creating bonds that transcend consumption.

**Repair is Sustainable**
It keeps your stuff in use, out of the landfill.
