

WEST 7TH STREET RECONSTRUCTION PROJECT

Project Description

The City of Whitefish is planning to reconstruct West 7th Street, from approximately Baker Avenue to Fairway Drive. The City has selected the engineering firm of Robert Peccia & Associates (RPA) of Kalispell to assist them with project management, surveying, public involvement, engineering design and construction administration and observation.

Public Involvement

Throughout the development of the roadway reconstruction, there will be several opportunities for public involvement. There will be informational newsletters, similar to this, and public meetings. The purpose of the public involvement is to make sure the design meets the needs of the residents.

Communication is Key

It is critical with these projects to establish a clear and open line of communication. The first step is to ensure that all property owners and residents are receiving the appropriate information. **Please complete and return the enclosed questionnaire to us.** You may

also e-mail Ryan Mitchell with RPA at ryan@rpa-kal.com. Please let us know the best way to correspond with you and make sure that we have your correct mailing or e-mail address.

Upcoming Work Plan

Below is our preliminary work plan for the Fall of 2014:

October 2014 - Newsletter Number One & Questionnaire: Initiate contact with residents and verify contact information.

October 2014 - Survey Work: Complete field surveying necessary for design of the roadway reconstruction project.

November & December 2014 - Preliminary Engineering: Hold public meetings with residents to listen to concerns and gain input. Prepare preliminary engineering for location and width of roadway, bike paths and sidewalks.
